

Informative Technical Sheet

NOVA-156 J6412

Widescreen 15.6" POS All-in-One system

Equipped with a 15.6" touchscreen, the NOVA-156 is the ideal all-in-one system for POS solutions requiring a larger workspace than conventional systems. Its sleek and ergonomic design ensures a minimal physical footprint, despite the expansive screen. Constructed from cast aluminum, its durability guarantees reliable, worry-free

ECLIPSE – High-performance POS solutions, at an exceptional price, to overshadow your competition

Think Big – The NOVA-156 is designed with a large 15.6" screen in a 16:9 ratio, providing a full HD resolution of 1920 x 1080. This widescreen display offers a broader viewing range than a standard 15" screen, maximizing the usability of your POS system.

A Classic, Reinvented – With its design that is both ergonomic and aesthetically pleasing, the NOVA-156 draws inspiration from modern design trends, blending functionality with style. It is a classic Eclipse all-in-one system, now featuring a refreshed look that aligns with today's tastes.

No Compromise on Performance – As a proud member of the Eclipse NOVA family, the NOVA-156 makes no concessions when it comes to performance, featuring 8GB of memory and M.2 storage. Running on Windows 11 IoT (LTSC), this device elevates the performance of traditional systems to the next level.

SPECIFICATIONS
